"THE ORIGINAL" CELEBRATES 30 YEARS

When Mickey Mantle stepped into the batter's box on April 9, 1965, sports in America changed forever. On that evening in Houston, the New York Yankees' star faced the first pitch ever in an indoor, domed stadium.

Since that night, The Astrodome, the original domed stadium and Eighth Wonder of the World, has served as a model for every stadium built since and as an architectural marvel. The 1995 season marks the 30th anniversary of that historic first baseball game indoors.

To recognize that event and 30 years of thrills and excitement under the dome, the Astros will wear a special 30th anniversary commemorative patch on the left sleeve of their batting practice, home and road uniforms in 1995.

Houston has had only four home games postponed because of rain since its entrance into the National League in 1962. The first three were "rained out" and all occurred in the first season when games were played in Colt Stadium (April 23 vs. Philadelphia, June 13 vs. New York, and July 16 vs. Chicago.) The fourth game was a "rain in" and occurred on June 15 of 1976 when as much as 10 inches of rain fell in the Houston area virtually flooding the entire city.

Only members of the Houston Astros and the visiting Pittsburgh Pirates were able to make their way to the Astrodome. Umpires, fans and stadium personnel were unable to reach the ballpark.

While Houston pitchers have tossed the most no-hitters in baseball in their 33-year history, Astros batters have been among the toughest to shut down. Houston has been no-hit only twice in its history and has not been held hitless since April 30, 1969, when Jim Maloney of Cincinnati did it (3,920 games entering 1995). Only the Cubs have gone longer without being no-hit (September 9, 1965 by Sandy Koufax), a span of 4,280 games.

Rolaids Scoring Formula: saves = 3 points; relief wins = 2 points; relief losses = -2 points; blown saves = -2 points.

BLOWN SAVE DEFINITION: When a relief pitcher enters a game in a save situation and departs with the save situation no longer in effect because he has given up the lead, he is charged with a blown save. (If the save opportunity still exists when he leaves the game, he is not charged with a save opportunity. If the pitcher has not given up the lead when he leaves the game, though the save opportunity may no longer exist, he is not charged with a save opportunity.) This method has been a part of the Rolaids formula since 1988.

The Astros have made three trips into post-season play and have lost to the eventual World Champions each time. Houston fell to Philadelphia three games to two in 1980 and the Phillies went on to defeat the Royals. In 1981, the Astros met the Dodgers in the Western Division Championship series and again fell 3-2. Los Angeles then went on to defeat Montreal and the New York Yankees for the title. In 1986 Houston dropped the NLCS to the New York Mets four games to two and the Mets went on to edge the Red Sox for the World Championship.

A players' strike, which started on August 12, forced cancellation of the remainder of the regular season, Divisional Series, League Championship Series and World Series in 1994.

In the history of the National League, only 26 players have hit home runs from both sides of the plate in the same game and four of them were members of the Astros. Alan Ashby was the first Astro to do it on September 27, 1982 at San Diego. Mark Bailey did it on September 16, 1984 at the Dome. Kevin Bass became the first player to do it twice in one season, first on August 3 and again on September 2 in 1987. Bass did it again on August 20, 1989 and once more on August 2, 1992 with the Mets. Ken Caminiti accomplished the feat on July 3, 1994 at Chicago, with one of the homers inside-the-park.

The Astros have finished each of the past two seasons with winning records both at home and on the road, marking just the second time in club history that the club has had back-to-back winning seasons away from home and at the Astrodome. Houston has finished above .500 at home and on the road in six campaigns overall (1972, 1973, 1981, 1986, 1993 and 1994).

In their 33 years in the National League, the Astros have had just three players hit for the cycle. Cesar Cedeno was the first to accomplish it, by driving in four runs against the Reds at Houston in a 10-1 win on August 2, 1972. Cedeno repeated his effort on August 9, 1976 when he drove in five runs in a 13-4 win at St. Louis. Bob Watson did it on June 24, 1977, but he took 11 innings. Watson drove in five of the Astros' six runs in a 6-5 win over San Francisco at Houston. Andujar Cedeno accomplished the feat on August 25, 1992 when the Astros lost to St. Louis 4-2 in 13 innings.

ASTRODOME FACTS

The Astrodome is the world's first all-weather, multi-purpose domed stadium, and opened its doors for the first time on April 9, 1965 when the Astros played host to the New York Yankees in an exhibition game.

- officially named the Harris County Domed Stadium, the Astrodome was financed by an $18 million general obligation bond which passed in January, 1961.
- the cost of the project, including off-site improvements, land acquisition, engineering fees, site roads and parking lot paving, was $31.6 million.
- the Astrodome and its adjoining facilities - the Astrohall and Astroarena - are operated by Astrodome USA.
- under a lease agreement with Harris County that extends with options to 2024, Astrodome USA pays an annual lease fee, plus all operating costs for the right to sub-lease the facilities

RENOVATIONS

A new artificial turf for baseball and an enlarged seating capacity are two of the highlights of a $60 million expansion project which was completed in the fall of 1989.

- the first stage of the renovation saw the concreting of the floor, which had been dirt since the stadium first opened in 1965.
- a new Monsanto "Magic Carpet" system provides separate turfs for football and baseball...the new turfs are housed in storage pits in center field and are rolled out on a cushion of air...each turf is marked for its sport and the new system substantially reduces the time needed for conversion of the stadium.
- the Astrodome is the first stadium in the country to have two separate playing surfaces at its disposal.
- after pioneering the idea of luxury suites in 1965 with Sky Boxes, 66 new Star★Columbia Suites have been added on the Club Level.

STADIUM COMPLEX COVERS 260 ACRES

The stadium structure covers nine-and-a-half acres of land, while the entire Astrodomain complex covers 260 acres.

- the outside diameter of the Astrodome structure is 710 feet...the stadium's floor is approximately 25 feet below normal ground level, affording minimum vertical travel by fans.

COMFORTABLE CUSHIONED, UPHOLSTERED SEATING

There are 51,000 cushioned, upholstered (seat and back) theatre seats in the Astrodome, along with approximately 4,000 pavilion seats (wooden back, upholstered seats).

- seating capacity for baseball is 54,350; for football, 63,001; for conventions, 68,000; and a maximum of 74,000 for boxing or similar events.
- seating can be arranged to accommodate any type of sports or meeting from rodeos to national political conventions.
- to convert from baseball to football seating, the stands holding 10,000 seats on the Field Level rotate on steel rails until they parallel the football sidelines.
- seating is arranged on six levels, allowing in effect for six front rows...all seats face the center of the playing area for baseball and football with the radius point of the stadium 20 feet behind second base on the baseball diamond.

DIAMOND VISION AND SCOREBOARD

The famous Astrodome scoreboard and home run spectacular were dismantled in September, 1988 to facilitate the 10,000-seat expansion program.

- two Diamond Vision screens, a large matrix board, two auxiliary matrix boards and a game-in-progress board replace the old system.
- each Diamond Vision is a 26 1/2 by 37 1/2-foot instant replay screen that brings field action up close for spectators...the screen's clear pictures are the product of 43,200 35mm CRTs (a home television is one CRT).
- the Diamond Vision brain is a state-of-the-art television production facility operated by a nine-person crew that includes technicians and cameramen.

- auxiliary matrix boards in left and right field display game information, messages, animation and out-of-town scores...the game-in-progress board is located behind home plate. These two systems became operational during the winter of 1988.
- a 26 by 34-foot matrix board was constructed in left field and began operation during the 1989 baseball season...this board is the primary source of messages, animations, out-of-town scores and statistics...the scoreboard system, built by the Fairtron Corporation, is controlled by high-level personal computers and is operated by a three-man crew.
- the system is the largest computer-run matrix board in the nation.

RAMPS, ESCALATORS PROVIDE EASY ACCESS

Wide, low-pitched ramps and two sets of escalators provide easy access to seats...the entire stands can be emptied in nine minutes with a maximum crowd.

UNIQUE ROOF AND LIGHTING SYSTEM

The permanent roof of the Astrodome, which has a clear span of 642 feet (twice that of any previous structure), has a maximum height of 208 feet above the playing field, which would allow the construction of an 18-story building under the roof.

- the roof design consists of a steel lamella frame incorporating trussed beams arching upward to meet at the center, braced in a diamond pattern.
- the steel skeleton supports a roof containing 4,596 cast acrylic sheet skylights (7'2" by 3'4").
- the roof can withstand hurricane winds of 135 miles per hour and gusts up to 165.
- the field is illuminated to an average brightness of 265 footcandles by 800 floodlights...the total electric power consumed exceeds 18,000 KVA, more than that needed by a city of 9,000 population.

MORE THAN 6,000 TONS OF AIR CONDITIONING

The stadium is completely air-conditioned with 6,600 tons of cooling capacity during events.

- the system circulates 2.5 million cubic feet of air each minute.
- also every minute, 250,000 cubic feet of fresh air is drawn into the stadium, conditioned by electronic filters and activated charcoal odor removers, then distributed through the system...smoke and hot air are drawn out through the top of the roof.

QUALIFICATIONS FOR BATTING CHAMPIONSHIP: Highest batting average based on a minimum of 502 plate appearances, which include official times at bat, bases on balls, hit by pitch, sacrifice hits, sacrifice flys and times awarded first base due to interference or obstruction.

QUALIFICATIONS FOR PITCHING CHAMPIONSHIP: Lowest earned run average with a minimum of 162 innings pitched.

SAVE RULE: Credit a pitcher with a save when he meets all three of the following conditions: (1) He is the finishing pitcher in a game won by this club; and (2) He is not the winning pitcher; and (3) He qualified under one of the following conditions: (a) He enters the game with a lead of no more than three runs and pitches for at least one inning; or (b) He enters the game, regardless of the count, with the potential tying run either on base, or at bat, or on deck (that is, the potential tying run is either already on base or is one of the first two batsmen he faces); or (c) He pitches effectively for at least three innings.

CONSECUTIVE-GAME PLAYING STREAK: A consecutive game playing streak shall be extended if the player plays one half-inning on defense, or if he completes a time at bat by reaching base or being put out. A pinch-running appearance only shall not extend the streak. If a player is ejected from a game by an umpire before he can comply with the requirements of this rule, his streak shall continue.

DETERMINING ON-BASE PERCENTAGE: Divide hits plus total bases on balls plus hit-by-pitch by at-bats plus total bases on balls plus hit-by-pitch and sacrifice flies (for purposes of this percentage, ignore being awarded first base on interference or obstruction).

DETERMINING PERCENTAGE OF GAMES WON AND LOST: Divide the number of games won by the total games won and lost.

JACKSON
Texas League–AA

Fielding the youngest team in the league, the Jackson Generals advanced to the final round of the Texas League playoffs before falling to El Paso, 4-0, in the Championship series.

Trailing 1-0 with two out in the bottom of the ninth, shortstop **Tom Nevers** homered to pull Jackson even. Three pitches later, team MVP **Jeff Ball** connected for a homer to dead center to give the Generals the series win.

Outfielder **Bob Abreu,** at 20 years of age the second-youngest position player in the league, surged in the season's second half by hitting .363 (62x171) with eight homers and 32 RBI in his final 50 games. Abreu finished with the Texas League's top mark in slugging percentage (.530). Ball finished fourth in the league with a .316 average, and Jimmy White posted a .337 (58x172) mark in 50 games after June 27.

Pitching highlights included a combined seven-inning no-hitter by **Kevin Gallaher** and **Jimmy Daspit** on April 10 against Tulsa in the third game of the season. **Doug Mlicki,** voted the team's "Golden Arm" award, was among Texas League leaders with 13 wins (2nd), a 3.38 ERA (5th) and 130 strikeouts (2nd). **Chris Holt** averaged just 1.2 walks per nine innings and was among the league's elite with a 3.45 ERA (8th), five complete games (2nd), two shutouts (T-1) and 167.0 innings (5th).

The bullpen was led by **Rick Huisman,** winner of the league's Rolaids Relief Man award with 31 saves and a 3-0 record. He also converted on 31-of-33 save opportunities of the year as the Generals did not lose a game all season when leading after seven innings. Daspit had an excellent month of June, earning Player of the Week honors for consecutive weeks (6/13-19; 6/20-26).

QUAD CITY
Midwest League–A

Despite finishing below .500 in both halves, individual efforts by several players highlighted the Quad City River Bandits 1994 campaign.

Outfielder **Richard Hidalgo,** who was just 18 when the season began, set a Midwest League record with 47 doubles and led the team with 76 RBI in 124 games. Hidalgo's season, which included a league-best 65 extra-base hits, included a 5x6 night with a homer, two doubles, five runs scored and five RBI on August 13 at Appleton. He also had 23 outfield assists, three coming on Opening Night.

Shortstop **Jamie Saylor** had a club-high 15-game hitting streak from May 28 to June 13, batting .419 (26x62). **Mike Rennhack** (April 17-29; .415) and **Kary Bridges** (July 23-August 2; .404) each posted 11-game hitting streaks. Bridges knocked in six runs on August 13 at Appleton, while first baseman **Eddie Ramos** compiled a stretch with one or more RBI in nine consecutive games.

Billy Wagner, the Astros top selection in the 1993 June draft, led all minor league pitchers with 204 strikeouts, four shy of the Midwest League's all-time record. His campaign included seven games with at least 11 strike-outs, including 14 in six innings on May 1 at Springfield. He also led the league with 91 walks in 153.0 innings, but allowed just 25 walks in his final 66.1 innings (3.4 per nine innings).

Scott Elarton, a first-round pick in the 1994 June draft, won four of five decisions after beginning his professional career with a 4-0 mark in the Gulf Coast League. His combined statistics included a 2.18 ERA (20 ER/82.2 IP), 51 hits allowed and 72 strikeouts in 82.2 innings pitched.

GULF COAST
Gulf Coast League–Rookie

The Gulf Coast Astros raced out of the gate by winning 23 of their first 27 games and continued the charge through the post-season, taking the GCL championship for the first time in franchise history.

The Astros captured their division by 14.5 games and won a one-game playoff against the Marlins as hurler **Niuman Lois** allowed just one run in seven innings while fanning seven to advance to the finals against the Royals. After splitting the first two in the three-game set, shortstop **David Landaker** came up big in the finale with a two-out, three-run homer in the eighth inning to tie the score 4-4. With two outs in the ninth, Landaker doubled home two runs to put the Astros ahead, and Loiz came on in relief to pick up the 6-4 victory.

Three Astros finished in the GCL top 10 in batting, including outfielder **Rodney Mangham** (3rd - .356), infielder **Oscar Robles** (8th - .327) and second baseman **Carlos Hernandez** (10th - .323). As a team, the Astros finished first in the league with .287 batting mark.

Other league leaders included Hernandez with 25 stolen bases (5th) and Robles with a .442 on-base percentage (2nd).

Loiz led the starting staff with six wins (tied for second in the GCL), and his 1.86 ERA was good for seventh-best in the circuit. **Anthony Mounce** had a league-high 72 strikeouts in just 59.2 innings and walked just 18 batters. **Scott Elarton,** one of the Astros first round picks in the June draft, did not allow a run in any of his five starts (28.0 innings) before being promoted to Quad City.

SPRING TRAINING INFORMATION

Osceola County Stadium
1000 Bill Beck Boulevard
Kissimmee, Florida 34744
(407) 933-6500

Osceola County Stadium has been the spring home of the Astros since it opened in 1985.

ASTROS SET FOR 11TH KISSIMMEE SPRING

The Astros return to Kissimmee in 1995 to begin the 11th Grapefruit League season at their Osceola County Stadium Complex.

The Astros moved to their state-of-the-art facility in 1985 after spending the previous 21 years in Cocoa, FL. When it opened, the complex was hailed as the best of its kind in Florida, and its unique "cloverleaf" design has served as host to many local civic events.

The playing field at Osceola County Stadium, was recognized by *Sports Turf Magazine* and the Beam Clay Company as its Baseball Field of the Year for 1990-91. Recent improvements to the stadium and surrounding grounds have included renovation of press, ticket office and concessions areas and padding for the outfield fences.

The Astros opened their facility on March 3, 1985 when a record crowd of 7,210 saw the Astros defeat the Yankees. The Astros surpassed the 500,000 mark in total attendance at Osceola in 1993 and attracted more than 59,000 fans to 15 home games in 1994.

Houston first conducted spring training in Apache Junction, AZ in 1962 and 1963 before moving to Cocoa in 1964.
